Not All Stations Depicted are Operated by the National Data Buoy Center.

This relay to you of data from the US National Data Buoy Center is provided with the compliments of Starpath School of Navigation (www.starpath.com) in Seattle, WA. We offer online training in all aspects of marine navigation and weather, and related products, such as the Fischer precision aneroid barometer.

To receive instructions on using this service, send an email to shipreports@starpath.com with 'help' in the subject line

PLEASE NOTE. This is a new service. If you are experiencing any trouble with it, please send an email to helpdesk@starpath.com or call us in Seattle at 206-783-1414, and we will address it promptly.
