

Fischer®

Precision Aneroid Barometers

The Best of the Best

Fischer barometers and barographs provide high-accuracy readings over the full range of atmospheric pressures, from the deepest Lows to the highest Highs. Used and depended upon by navies and weather services worldwide for more than 70 years.

These classic instruments, each hand made, tested, and certified, are now readily available to the public worldwide. They are ideal for marine navigation, weather analysis, medical applications, and other areas of science and engineering.

Precision movement with 5 aneroid capsules

Accuracy	± 0.7 mb, ± 0.02 inHg
Graduation	0.5 mb and 0.01 inHg
Dial diameter	5.1"
Units	mb and inHg
Diameter	6.5"
Height	3.1"
Weight	1.6 pounds
Range	890 to 1050 mb, 26.30" to 31.00"

European models read in hPa and mm

Available worldwide
